SAN DIEGO -- There's now a new, creative way to send an e-card to friends and family. In this 10News Click, Michelle Krish shows you how to be a star in the next e-greeting you send.

Here's the perfect Web site if you want to cheer someone's day up or let them know you're thinking of them.

On [MushyGushy.com](#), users can upload photos and cut and paste their heads into several animations and then send the e-cards to family and friends.

The gushy-grams are free when you send them through standard e-mail.

There are animations for all occasions.
